Grants & Research Support

- 2016-2017 **Society for Community Research and Action Community Mini-Grant**
The University of Southern Mississippi
 Funding for a study, conducted in collaboration with Forrest County (MS) Youth Drug Court, examining individual, family, and system-related factors that contribute to outcomes in juvenile drug court.
 Amount awarded: \$1,000
 Role: Principal Investigator
- 2016-2017 **University of Southern Mississippi Proposal Development Grant**
The University of Southern Mississippi
 An internal grant that provides faculty members with funding to support their efforts to develop an external grant proposal. Funds will be used to collect pilot data on a Dialectical Behavior Therapy (DBT) Skills Training Group intervention for youth residing in a boot camp facility.
 Amount awarded: \$2,000
 Role: Co-Principal Investigator (with Dr. Joye Anestis)
- 2016-2017 **Society for a Science of Clinical Psychology Varda Shoham Clinical Scientist Training Initiative**
The University of Southern Mississippi
 Funding to enhance efforts by clinical psychology doctoral programs to integrate science into clinical practice. Used to bring an expert DBT training team in for a workshop with USM's clinical psychology doctoral program.
 Amount awarded: \$1,500
 Role: Co-Principal Investigator (with Dr. Joye Anestis)

- 2012-2015 **National Institute on Drug Abuse (T32 DA031115)**
Training in Drug Abuse Research: Behavior and Neurobiology
The University of Texas Health Science Center at San Antonio
 PI: Charles P. France, Ph.D.
 A postdoctoral training program that addresses the well-recognized need for addiction scientists with interdisciplinary training.
 Role: Postdoctoral Fellow
- 2011-2015 **National Institute on Drug Abuse (R01 DA026868)**
Consequences of Adolescent Substance Use on the Development of Impulse Control
The University of Texas Health Science Center at San Antonio
 PI: Donald M. Dougherty, Ph.D.
 This longitudinal study examines the associations between substance use and impulsivity across adolescents in a majority high-risk sample of youth. An additional R01 (DA033997) was funded to examine brain maturation among a subset of the youth using fMRI.
 Role: Postdoctoral Fellow
